

## Our CREATIVE Curriculum in the Spring Term in Little Griffins

# This term our topic is... Discoveries.

As part of our whole-school topic “Discoveries”, Little Griffins will be exploring the natural world around them and begin to understand the changes that occur during the season of spring.

We will begin to ask questions and make sense of the natural world around us , sharing ideas and making suggestions when working practically. Through simple investigations, we will begin to guess what might happen and talk about what we see and hear around us.

We will learn to group objects, plants and animals with support. We will explore how some objects can be pushed or pulled, how some materials can freeze or melt, and discover which objects can float or sink. Through exploration, we will learn about light and dark and how shadows are created when the light is blocked. We will learn about loud and quiet sounds and explore how sounds can represent objects in our environment.

In Little Griffins, we will also be investigating seasonal change with weekly outdoor/ forest time sessions.

St Peter's “A creative school family that shines together through God's love & grace.”
