

Our CREATIVE Curriculum in the Summer Term (Bl. 2)

This term our topic is... **Look out, Look out!**

As part of our whole-school topic 'Look out, Look out', Year 2 will be focusing on Lighthouses and their importance in the past and in modern day. We will look at different lighthouses from around the world and will compare and contrast these to lighthouses in the United Kingdom. We will look at their structures and, through group work and discussion, we will design and make our own structures with working lights. We will make maps and collect data about different lighthouses from around the world and will carry out research to investigate if these structures are still used today and how they have changed over time.
